

6007
Senior Recognition

The school district will recognize the outstanding academic achievement of its graduating seniors in the following manner:

Valedictorian- The student who attains the highest average for four years (8 semesters) of high school work shall be designated as Valedictorian.

Salutatorian- the student with the next highest average for four years (8 semesters) of high school work shall be designated as Salutatorian.

All courses which are graded using percentile grades will be included when figuring the total average. Grades that are not percentile grades will not be included in the G.P.A.

G.P.A. is figured using a formula based on the number of credit grades earned.

To be eligible for Valedictorian or Salutatorian, a student must complete at least two (2) of the following courses: College Prep English, Chemistry, Physics, Anatomy & Physiology, or Pre-Calculus

Students will be graduated with "Academic Distinction" if they have earned an accumulative G.P.A. that falls between 93% and 100% for all courses taken in grades 9-12.
