

# MEET YOUR TEACHER

## THE BASICS

My name is Jackie Johnson and let me tell you a little about myself. When I am not teaching, my husband and I farm and chase three children. I love to go to the lake and watch my children grow and do what they love. Johnny my oldest loves to play sports and go fishing. He is currently in the 9th grade at Loomis, Jameson and Jaelyn are in 6th grade and they love to be busy and be involved in everything! Jameson loves to play baseball and Jaelyn Loves volleyball and softball.

## MY BACKGROUND

I absolutely love teaching in my hometown of Loomis, where my journey began. I graduated from Loomis Public School in 2003, and after high school, I pursued my passion for education at Doane College. In 2007, I earned my bachelor's degrees in Elementary Education and Special Education. Continuing to grow professionally, I completed my master's degree in Curriculum and Instruction in 2015. Loomis has always been my forever home, and I feel incredibly blessed to be part of such a supportive community and wonderful school. This year marks my 18th year teaching at Loomis, and I'm grateful every day to contribute to the place that shaped me.

My Mission is to...

As an educator my ultimate goal is to prepare each individual to reach their full intellectual level, to create an environment that is inclusive, multicultural, and reflects the community. I want all students to build respect and value themselves and others who in the end become life-long learners. I want to continue being the teacher who motivate, inspire, support, and encourage all students. I will make my teaching safe, secure, and a loving environment.
